

Poster Session I Thursday Evening

- 1 *Linguistics Meets Chronobiology: Is Language Sensitive to Circadian Rhythms?*
 Jessica Rosenberg..... 31
- 2 *All We Are Saying is Give Primes a Chance*
 David Race (drace@bcs.rochester.edu), Michael K. Tanenhaus (The University of Rochester), Mary Hare (Bowling Green State University) and T. Florian Jaeger (The University of Rochester)..... 32
- 3 *Structural Priming in Reduced Relatives: Ambiguity Effect Sizes Reveal Contingent Cueing*
 Gail Mauner (mauner@buffalo.edu) and Todd Reeves (University at Buffalo, The State University of New York)..... 33
- 4 *Difference in Strength of Island Effects in English and Japanese: Head Position and Processing Time-Series of Discontinuous Dependency*
 Shingo Tokimoto (tokimoto@mejiro.ac.jp) (Mejiro University) 34
- 5 *Universal and Cross-linguistic Influences on the Processing of Word-order and Animacy: Neurophysiological Evidence from Tamil*
 R. Muralikrishnan (Max Planck Institute for Human Cognitive and Brain Sciences), Matthias Schlesewsky (University of Marburg) and Ina Bornkessel-Schlesewsky (bornke@cbs.mpg.de) (Max Planck Institute for Human Cognitive and Brain Sciences) 35
- 6 *(Un)Frozen Scope in English and German Double Object Constructions*
 Tanja Heizmann (tanja@linguist.umass.edu) (University of Massachusetts, Amherst)..... 36
- 7 *Priming Effects on Translation Process by Korean-English Bilinguals*
 Jung Hyun Lim (jhlum@uiuc.edu) and Kiel Christianson (University of Illinois at Urbana-Champaign)..... 37
- 8 *Coherence-Driven Expectations in Discourse and Dialog*
 Hannah Rohde (hannah@ling.ucsd.edu) and Andrew Kehler (UC San Diego)..... 38
- 9 *Time-course of Processing Conceptual Pacts in Conversation Reveals Early Partner-specific Effects*
 Sarah Brown-Schmidt (brownsch@uiuc.edu) (University of Illinois) 39
- 10 *Tensor Product Models for Language-Related Brain Potentials*
 Sabrina Gerth (sabringerth@googlemail.com) (University of Potsdam, Germany), Peter beim Graben (University of Reading, UK) and Shravan Vasishth (University of Potsdam, Germany) 40
- 11 *When the Truth Isn't Too Hard to Handle: An Event-Related Potential Study on the Pragmatics of Negation*
 Mante Nieuwland (mante@nmr.mgh.harvard.edu) and Gina Kuperberg (Tufts University & MGH/MIT/HMS Athinoula A. Martinos Center for Biomedical Imaging) 41
- 12 *Processing Cost For the Scrambled Word Order: Where and Why Does It Emerge?*
 Hajime Ono (onohajime@hiroshima-u.ac.jp), Hitomi Nashiwa, Makoto Miyatani and Hiromu Sakai (Hiroshima University) 42

Poster Session I Thursday Evening

13	<i>An MEG Comparison of Word- and Sentence-level Context Effects on the N400</i> Ellen Lau (ellenlau@umd.edu), Diogo Almeida, Paul Hines and David Poeppel (University of Maryland, College Park).....	43
14	<i>An ERP Investigation of the Components of Referential Accessibility</i> Clinton L. Johns (cljohns@ucdavis.edu) (University of California, Davis), Peter C. Gordon (University of North Carolina, Chapel Hill) and Tamara Y. Swaab (University of California, Davis).....	44
15	<i>Priming of Transitivity in Comprehension</i> Maria Nella Carminati (m.n.carminati@dundee.ac.uk) and Roger Van Gompel (University of Dundee)	45
16	<i>Production of Arguments and Adjuncts in Normal and Agrammatic Aphasic Speakers: An Eyetracking Study</i> Jiyeon Lee (jiyeonlee@northwestern.edu) and Cynthia Thompson (Aphasia & Neurolinguistics Research Laboratory, Northwestern University).....	46
17	<i>Concurrent Memory Load Attenuates the Link between Eye Movements and Language Comprehension in the Visual World Paradigm.</i> Karl G. D. Bailey (kgbailey@andrews.edu), Lorraine C. Siebold, Jasmine Zork and Carolyn Groves (Andrews University)	47
18	<i>Integration of Affordances in Situated Language Comprehension</i> Jelena Mirkovic (j.mirkovic@psych.york.ac.uk) and Gerry Altmann (University of York, UK)	48
19	<i>The Influence of Speech-contingent Eye Movements on Word Comprehension</i> Juliane Steinberg (julianes@coli.uni-sb.de) and Matthew Crocker (Saarland University)	49
20	<i>Limited Syntactic Parallelism in Chinese Ambiguity Resolution</i> Yufen Hsieh (yfhsieh@umich.edu), Julie Boland (University of Michigan), Yaxu Zhang (Peking University) and Ming Yan (Beijing Normal University)	50
21	<i>Active Dependency Formation for Adjunct wh-Phrases</i> Masaya Yoshida (University of Edinburgh) and Michael Walsh Dickey (mdickey@pitt.edu) (University of Pittsburgh).....	51
22	<i>The Influence of World Knowledge on the Processing of Relative Quantifier Scope.</i> Ruth Filik (r.filik@psy.gla.ac.uk), Linda Moxey (The University of Glasgow), Kevin Paterson and Joanne Ingram (The University of Leicester)	52
23	<i>Accessibility of Negated Constituents in Spoken Language Comprehension and Reading</i> Noa Shuval, Barbara Hemforth (barbara.hemforth@univ-paris5.fr) and Catherine Rigaut (LPNCog, Université Paris 5)	53
24	<i>The Influence of Plausible Scene Events During Incremental Syntactic Disambiguation</i> Emilia Ellsiepen (ellsiepe@coli.uni-sb.de), Matthew W. Crocker (Saarland University, Germany) and Pia Knoeferle (University of California San Diego, USA)	54

**Poster Session I
Thursday Evening**

25	<i>The Influence of Second-Order, Non-Adjacent Constraints on Reading Times in an Artificial Language Paradigm</i> Michael Amato (amato@wisc.edu) and Maryellen MacDonald (University of Wisconsin - Madison)	55
26	<i>Subject- and Object-verb Agreement in Speech Production: Evidence from Basque</i> Mikel Santesteban (msantesteban@ed.ac.uk), Martin Pickering, Holly P. Branigan (University of Edinburgh) and Itziar Laka (University of the Basque Country)	56
27	<i>Experimental Approaches to the Study of Grammar: Agreement and Gender Resolution in Slovene</i> Franc Lanko Marusic (University of Nova Gorica), Andrew Nevins (Harvard University) and William Badecker (badecker@jhu.edu) (Johns Hopkins University)	57
28	<i>Syntactic Categories Ambiguity and Grammatical Agreement</i> Robert Thornton (rt004747@pomona.edu) and Jeffrey Bye (Pomona College)	58
29	<i>When Hands Speak: The Production of Syllables in Cued Speech</i> Eva Smolka (esmolka@ull.es), Joana Cholin and Manuel Carreiras (University of La Laguna, Spain)	59
30	<i>Verb Bias Modulates Syntactic Priming for Datives</i> Sarah Bernolet (sarah.bernolet@ugent.be) and Rob Hartsuiker (Ghent University)	60
31	<i>The Preposition's Role in Syntactic Priming</i> Nick Gruberg (n.gruberg@temple.edu) and Nadine Martin (Temple University)	61
32	<i>Priming from Within: The Effects of Embedding on Structural Priming</i> Meredith Larson (meredithjlarson@gmail.com) (Northwestern University)	62
33	<i>Is Memory for Syntactic Knowledge Modality-independent? Evidence from Syntactic Priming</i> Matthew Hall (matthall@ucsd.edu) and Victor Ferreira (University of California, San Diego)	63
34	<i>The Speaking Eye: An Investigation of Name-related Gazes.</i> Jens Apel (J.Apel@sms.ed.ac.uk) and Fernanda Ferreira (University of Edinburgh)	64
35	<i>Lexical and Structural Determinants of Syntactic Structure in Language Production</i> Clare Huxley (clare.huxley@ed.ac.uk), Holly P. Branigan, Janet F. McLean and Martin Pickering (University of Edinburgh)	65
36	<i>The Production of Unbounded Dependencies: Evidence from Syntactic Priming.</i> Clare Huxley (clare.huxley@ed.ac.uk), Holly P. Branigan, Martin Pickering and Janet F. McLean (University of Edinburgh)	66
37	<i>Typing Speed as a Reflection of Incremental Sentence Planning: Application of a New Task to Heavy NP Shift in Japanese</i> Franklin Chang (chang.franklin@gmail.com) (NTT Communication Sciences Laboratories), Hiroko Yamashita (Rochester Institute of Technology) and Yuki Hirose (University of Tokyo)	67

Poster Session I Thursday Evening

38	<i>Grammatical Versus Semantically Transparent Word Order in Negated Sentences: Comparing Production, Imitation and Processing in Turkish Learners of German</i> Sarah Schimke (sarah.schimke@mpi.nl) (MPI for Psycholinguistics).....	68
39	<i>The Effect of Contrastive Accent in Discourse Construction</i> Ross Metusalem (ross@ling.ohio-state.edu) and Kiwako Ito (Ohio State University)	69
40	<i>Effects of Pitch Accents on Memory in Language Comprehension</i> Scott Fraundorf (sfraund2@uiuc.edu), Duane G. Watson and Aaron Benjamin (University of Illinois at Urbana-Champaign).....	70
41	<i>Comprehension and Resynthesis of Duration and Pitch in Ambiguous Words</i> Angela Isaacs (aisaacs2@uiuc.edu) and Duane G. Watson (University of Illinois at Urbana-Champaign).....	71
42	<i>Eye-Tracking Evidence for the Active Role of Intonational Boundaries in Parsing Decisions</i> Eun-Kyung Lee (eklee1@uiuc.edu), Yoonsook Mo and Duane G. Watson (University of Illinois at Urbana-Champaign).....	72
43	<i>Effects of Repeated Mention and Predictability on the Production of Acoustic Prominence</i> Tuan Lam (tuanlam2@uiuc.edu), Duane G. Watson (University of Illinois at Urbana-Champaign) and Jennifer Arnold (University of North Carolina, Chapel Hill).....	73
44	<i>An Empirical Investigation of the Acoustic Features Associated with Markers of Information Structure</i> Mara Breen (mbreen@psych.umass.edu) (University of Massachusetts Amherst), Michael Wagner (Cornell University), Evelina Fedorenko and Edward Gibson (Massachusetts Institute of Technology).....	74
45	<i>The Puzzle of Processing Any in Subtriggering Contexts</i> Lyn Frazier, Helen Majewski, Paula Menendez-Benito (paulamb@linguist.umass.edu) (University of Massachusetts Amherst) and Keith Rayner (University of Massachusetts Amherst/University of California San Diego).....	75
46	<i>Category of Number: Grammatical or Conceptual?</i> Ming Xiang (mxiang@fas.harvard.edu), Boris Harizanov and Maria Polinsky (Harvard University)	76
47	<i>Vocabulary Acquisition: Thematic Versus Categorical Context</i> Randy Lowell (lowell@gwm.sc.edu) and Robin Morris (University of South Carolina)	77
48	<i>Predictive Use of Contrastive Intonation in Visual Search: Intersective Color Vs. Subsective Scalar Adjectives</i> Kiwako Ito (ito@ling.ohio-state.edu) and Shari Speer (Ohio State University)	78
49	<i>Strong Evidence for Weak Definites</i> Natalie Klein (nklein@bcs.rochester.edu), Whitney Gegg-Harrison (University of Rochester), Rachel Sussman (University of Wisconsin, Madison), Greg Carlson (University of Rochester) and Michael K. Tanenhaus (University of Rochester)	79

Poster Session I Thursday Evening

50	<i>What Do Listeners Expect When the Speaker is Disfluent: Something Unfamiliar or Something Hard to Name?</i> Daphna Heller (dheller@ling.rochester.edu) (University of Rochester), Jennifer E. Arnold (UNC Chapel Hill), Natalie Klein and Michael K. Tanenhaus (University of Rochester) 80
51	<i>The Role of Agreement Features and Pronoun Resolution</i> Jana Häussler (jana.haeussler@uni-konstanz.de) and Markus Bader (University of Konstanz) 81
52	<i>Repeated Names, Overt Pronouns and Null Reference in Spanish</i> Carlos Gelormini-Lezama (cgelormini@hotmail.com) and Amit Almor (University of South Carolina) 82
53	<i>Nominal Hierarchies: Hierarchical information Interacts with Shape on a Novel Word Task</i> Edward Holsinger (eschlon@mac.com) and Elsi Kaiser (University of Southern California) 83
54	<i>Costs and Benefits of Using a Speaker's Eye-Gaze in Face-to-Face Referential Communication</i> Joy Hanna (Joy.Hanna@Oberlin.edu) (Oberlin College) and Susan Brennan (Stony Brook University) 84
55	<i>Domain Narrowing: Interpreting 'only' in Context</i> Christina Kim (ckim@bcs.rochester.edu), Christine Gunlogson, Michael K. Tanenhaus and Jeffrey Runner (University of Rochester) 85
56	<i>The Representational Nature of Representational NPs: Using the Visual World Eye-Tracking Paradigm</i> Micah B. Goldwater (micahbg@gmail.com) (University of Texas at Austin) and Jeffrey T. Runner (University of Rochester) 86
57	<i>Contextual Factors Affecting Focal Sets and Plural Pronoun Resolution in Language Production and Comprehension</i> Linda M Moxey (linda@psy.gla.ac.uk) and Ruth Filik (University of Glasgow) 87
58	<i>Complement Set Focusing Without Quantifiers: Evidence From Language Production and Comprehension.</i> Joanne Ingram (joanne@psy.gla.ac.uk), Linda Moxey and Ruth Filik (University of Glasgow) 88
59	<i>Effects of Cognitive Saliency on the Choice of Referring Expressions</i> Kumiko Fukumura (k.fukumura@dundee.ac.uk), Roger P.G. van Gompel (University of Dundee) and Martin J. Pickering (University of Edinburgh) 89
60	<i>Processing Reverse Sluicing: A Contrast with Processing Filler-Gap Dependencies</i> Jason Gullifer (jason.gullifer@gmail.com) (University of Massachusetts, Amherst) 90
61	<i>The After-Effects of Linguistic Form Choice on Comprehension</i> Philip Hofmeister (Stanford University/UCSD) (quarterhearted@gmail.com) 91

Poster Session II Friday Evening

1	<i>A Mathematical Model of Grammaticality Judgments</i> Markus Bader (markus.bader@uni-konstanz.de), Jana Häussler, Tanja Schmid and Simon Hopp (University of Konstanz) 92
2	<i>Interpreting Contrastive Constituents in Russian by Monolingual and Bilingual Speakers</i> Irina Sekerina (sekerina@mail.csi.cuny.edu) (College of Staten Island/CUNY) 93
3	<i>Referential Processes in Children's Sentence Comprehension: Evidence from Quantified Noun-phrases</i> Marilena P. Mousoulidou and Kevin B. Paterson (kbp3@le.ac.uk) (University of Leicester) 94
4	<i>Surface Scope as the Default: The Effect of Time in Resolving Quantifier Ambiguity</i> Scott Fults (scott.fults@gmail.com), Anastasia Conroy, Jeffrey Lidz (University of Maryland, College Park) and Julien Musolino (Indiana University) 95
5	<i>Development of Cognitive Flexibility and Semantic Computation</i> Utako Minai (u_minai@brain.riken.jp), Nobuyuki Jincho (RIKEN Brain Science Institute), Naoto Yamane (RIKEN Brain Science Institute, Tokyo Gakugei University) and Reiko Mazuka (RIKEN Brain Science Institute, Duke University) 96
6	<i>Learning Irregular Plurals – Why Irregulars Are like Regulars</i> Inbal Arnon (inbalar@stanford.edu) and Eve Clark (Stanford) 97
7	<i>What Do Shoppers Expect to Save? Agents Influence Patients via Events, Not Associative Priming</i> David Race (drace@bcs.rochester.edu), Natalie Klein (The University of Rochester), Mary Hare (Bowling Green State University) and Michael K. Tanenhaus (The University of Rochester) 98
8	<i>When Verbs Do Not Prime Typical Instruments Or Locations</i> Chung-I Erica Su (chungisu@buffalo.edu), Gail Maurer and Jean-Pierre Koenig (University at Buffalo) 99
9	<i>A Language-cognition Interface Model for Sentence Production</i> Andriy Myachykov (a.myachykov@ed.ac.uk) (University of Edinburgh), Christoph Scheepers and Simon Garrod (University of Glasgow) 100
10	<i>Agreement Processing in Coordinated Phrases</i> Annabel J. Harrison (annabelh@cogsci.ed.ac.uk), Holly P. Branigan and Martin J. Pickering (University of Edinburgh) 101
11	<i>Modeling Garden Paths in a Statistical Dependency Parser: Chinese, German, and English</i> Marisa Ferrara Boston (mferrara@msu.edu), Zhong Chen and John T. Hale (Michigan State University) 102
12	<i>Does Phonological Alignment Enhance Syntactic Alignment During Dialogue? Evidence from Homophones</i> Mikel Santesteban (msantesteban@ed.ac.uk), Martin J. Pickering and Janet F. McLean (University of Edinburgh) 103

Poster Session II Friday Evening

13	<i>The Structure and Function of Disfluency in Dialogue</i> Hannele Nicholson (Hannele.Nicholson@gmail.com) (Linguistics, Ohio State University) and Ellen Gurman Bard (LEL, Edinburgh University).....	104
14	<i>Modeling Language-related Brain Potentials by Dynamical Recognizers</i> Peter beim Graben (p.r.beimgraben@reading.ac.uk) (University of Reading, UK), Sabrina Gerth (University of Potsdam, Germany) and Shravan Vasishth (University of Potsdam, Germany)	105
15	<i>Computation Matters - Modeling and Processing of Two Kinds of Aspectual Coercion</i> Oliver Bott (oliver.bott@uni-tuebingen.de) (University of Tübingen) and Fritz Hamm (University of Stuttgart)	106
16	<i>Word Frequency in Syntactic Processing: an ERP Study</i> Hanneke Loerts and Laurie A. Stowe (l.a.stowe@rug.nl) (University of Groningen)	107
17	<i>An ERP Study of the Time Course of Complement Coercion</i> Gina Kuperberg (kuperber@nmr.mgh.harvard.edu), Arim Choi, Neil Cohn, Martin Paczynski, Tali Ditman, Phillip Holcomb and Ray Jackendoff (Tufts University & Mass. Gen. Hospital)	108
18	<i>A Model of Attention in the Interaction of Language and Scene</i> Marshall Mayberry (martym@coli.uni-sb.de) and Matthew Crocker (Saarland University). 109	
19	<i>A Statistical and Computational Modeling Approach to Group and Individual Differences in the Time Course of Language Processing</i> James Magnuson (james.magnuson@uconn.edu), Daniel Mirman and James Dixon (University of Connecticut and Haskins Labs)	110
20	<i>Does Lexical Activation Flow from Word Meanings to Word Forms During Spoken Word Recognition?</i> Eiling Yee (eiling@psych.upenn.edu) and Sharon L. Thompson-Schill (University of Pennsylvania).....	111
21	<i>Gap-driven Processing of Filler-gap Dependencies in Chinese</i> Shukhan Ng (sng@gc.cuny.edu) (CUNY Graduate Center).....	112
22	<i>Filling Gaps in Chinese Topicalization</i> Yu-Chi Huang (yuchih@usc.edu) and Elsi Kaiser (University of Southern California).....	113
23	<i>On-line Versus Off-line Processing: The Differential Role of Working Memory</i> Donghoon Lee (dl10@indiana.edu), Brian Marks and Sharlene Newman (Indiana University)	114
24	<i>BOLD Signal Response to Syntactic and Semantic Variables in Font Change Detection</i> David Caplan (dcaplan@partners.org) (MGH) and Gloria Waters (Sargent College, BU)..	115
25	<i>The Syntactic Use of Idiomatic Expressions</i> Patrizia Tabossi (tabossi@units.it) (University of Trieste Italy)	116

Poster Session II Friday Evening

26	<i>Evidence for Self-organized Parsing: Local Coherence Facilitation</i> Anuenue Kukona (anuenue.kukona@uconn.edu), Whitney Tabor (University of Connecticut & Haskins Laboratories) and Sean Hutchins (McGill University)	117
27	<i>A New Method for Analyzing Eye Movements in Reading that Is Sensitive to Fixation Patterns and Fixation Durations</i> Titus von der Malsburg (malsburg@cl.uni-heidelberg.de) and Shravan Vasishth (University of Potsdam, Germany)	118
28	<i>The Role of Coherence Relations in Ordering Events in a Tenseless Language</i> Jeruen Dery (jedery@buffalo.edu) and Jean-Pierre Koenig (University at Buffalo – SUNY)	119
29	<i>A Theory of Processing Difficulty Based on Syntactic Prediction</i> Vera Demberg and Frank Keller (keller@inf.ed.ac.uk) (University of Edinburgh)	120
30	<i>What Information Did the Reader Activate The Verb With? - Dynamic Verb Representations and Their Sensitivity to the Semantic Environment</i> Rachel Sussman (rssussman@wisc.edu) and Maryellen MacDonald (University of Wisconsin-Madison)	121
31	<i>A Dynamical Systems Model of Sequential Eye-Movements in Sentence Processing in the Visual World Paradigm</i> Whitney Tabor (whitney.tabor@uconn.edu) and Anuenue Kukona (University of Connecticut)	122
32	<i>Modulation of the Garden Path Effect by Verb Type: Why Unaccusatives Have It Easy</i> Kyle Grove (grovekyl@msu.edu) and John Hale (Michigan State University)	123
33	<i>Subject-Verb Agreement in Sentence Comprehension</i> Saveria Colonna (saveria.colonna@univ-paris8.fr) (University of Paris 8 & CNRS), Julie Franck and Ulrich Frauenfelder (University of Geneva)	124
34	<i>Expectation-Based Processing of Extraposed Structures in English</i> Roger Levy (rlevy@ling.ucsd.edu) (UC San Diego), Edward Gibson and Evelina Fedorenko (MIT)	125
35	<i>Semantic Composition and Inchoative Coercion: An MEG Study</i> Jonathan Brennan (jon.brennan@nyu.edu) and Liina Pykkänen (New York University) ...	126
36	<i>The Roles of Information Structure and Animacy in the On-line Comprehension of the Dative Alternation</i> Meredith Brown (mbrown5@mit.edu), Virginia Savova and Edward Gibson (MIT)	127
37	<i>The Repetition of General Lexical Material Boosts Structural Priming in Language Production</i> David Reitter (dreitter@inf.ed.ac.uk) (University of Edinburgh)	128

Poster Session II Friday Evening

- 38 *On the Persistence of Structural Priming: Mechanisms of Decay and Influence of Word-forms*
Gaurav Malhotra (gaurav.malhotra@ed.ac.uk), Martin Pickering, Holly P. Branigan and James Bednar (University of Edinburgh) 129
- 39 *Information Structure Encoding Level: Evidence from Syntactic Priming*
Mirta Vernice (mirta.vernice@unipv.it) (University of Pavia, Italy), Holly P. Branigan (Edinburgh University, UK) and Martin Pickering (Edinburgh University, UK) 130
- 40 *Getting to the Bottom of Syntactic Priming – Which Structures Can be Primed?*
Judith Koehne (judithkoehne@gmail.com) (Saarland University) and Martin J. Pickering (University of Edinburgh) 131
- 41 *A Learning-based Account of Word Order Biases in English and Japanese Sentence Production*
Franklin Chang (chang@cslab.kecl.ntt.co.jp) (NTT Communication Sciences Laboratories) 132
- 42 *A Unified Model of Redundancy Avoidance and Strategic Lengthening*
T. Florian Jaeger and Celeste Kidd (ckidd@bcs.rochester.edu) (University of Rochester, Brain & Cognitive Sciences) 133
- 43 *The Representation of Plans in Speech Production: Evidence from Syntactic Blends*
Elizabeth Coppock (coppock@stanford.edu) (Stanford University) 134
- 44 *Effects of Question Particles and Prosody in Perceiving ‘whether’ wh-questions in Korean*
Heeju Hwang (heejuhwang@gmail.com) (USC) 135
- 45 *Evidence for Pausing, Not Wrap-up, Effects in Reading and Implications for E-Z Reader 10*
Tessa Warren (tessa@pitt.edu) (University of Pittsburgh), Sarah White (University of Leicester) and Erik Reichle (University of Pittsburgh) 136
- 46 *The Effects of Semantic Predictability and Shared Similarity with the Other Possible Fillers on Processing*
Hongoak Yun, Douglas Roland (droland@buffalo.edu), Jean-Pierre Koenig and Gail Mauner (University at Buffalo) 137
- 47 *Verb Types Influence Mental Imagery in Japanese Sentence Comprehension*
Manami Sato (manamis@hawaii.edu) and Amy Schafer (University of Hawaii, Manoa) 138
- 48 *Early and Late Effects of Agreement Attraction in Comprehension*
Matthew Wagers, Ellen Lau (ellenlau@umd.edu) and Colin Phillips (University of Maryland, College Park) 139
- 49 *Position Effects in Anaphora Resolution in German and French*
Sarah Schimke (sarah.schimke@mpi.nl) (MPI for Psycholinguistics), Saveria Colonna (Paris 8 & CNRS) and Barbara Hemforth (Paris Rene Descartes, CNRS) 140
- 50 *Gender Ambiguity and Reference: Processing Pronouns and Repeated Names*
Huijun Tang (h.j.tang@dundee.ac.uk) and Roger P.G. Van Gompel (University of Dundee) 141

Poster Session II Friday Evening

51	<i>Demanding an Explanation: Implicit Causality Biases in Discourse Interpretation</i> Hannah Rohde (hannah@ling.ucsd.edu) and Andrew Kehler (UC San Diego).....	142
52	<i>The Bidirectional Influence between Coherence Establishment and Pronoun Interpretation</i> Hannah Rohde (hannah@ling.ucsd.edu) and Andrew Kehler (UC San Diego).....	143
53	<i>Effects of Non-linear Discourse Structure on Interpreting Ambiguous Noun Phrases</i> Donna Byron, Darla Shockley (shockley@cse.ohio-state.edu) (The Ohio State University), Sarah Brown-Schmidt (The Beckman Institute, University of Illinois), Kiwako Ito and Shari Speer (The Ohio State University).....	144
54	<i>Focus and Typicality Effects on Anaphor Resolution: Evidence from Eye-tracking.</i> Veena A. Nair (VEE.NAIR@GMAIL.COM), Robin K. Morris and Amit Almor (University of South Carolina, Columbia)	145
55	<i>Effects of Stress and Coherence on Pronoun Interpretation</i> Erin Tavano (tavano@usc.edu) and Elsi Kaiser (University of Southern California).....	146
56	<i>Working Memory and the Repeated Name Penalty</i> Ashley Smith, Eric Bowers, Kenneth Fischer, Matthew Quattlebaum, Veena Nair and Amit Almor (almor@sc.edu) (University of South Carolina)	147
57	<i>A Comparative Investigation of Anaphor Resolution in German and Dutch</i> Elsi Kaiser (elsi.kaiser@usc.edu) (University of Southern California) and Jeffrey Runner (University of Rochester).....	148
58	<i>Processing Chinese Relative Clauses in Context</i> H. -H. Iris Wu (iriswu@mit.edu) and Edward Gibson (Massachusetts Institute of Technology)	149
59	<i>Relative Clause Processing: Working Memory Effects on Ambiguity Resolution</i> Ji Kim (jkim1@uiuc.edu) and Kiel Christianson (University of Illinois, Urbana-Champaign).....	150
60	<i>Local Coherences in the Wild: An Eye-tracking Corpus Study</i> Klinton Bicknell (kbicknell@ucsd.edu) (UCSD), Vera Demberg (University of Edinburgh) and Roger Levy (UCSD)	151
61	<i>Integrating Surprisal and Dependency Locality Theory: A Broad Coverage Model</i> Vera Demberg and Frank Keller (keller@inf.ed.ac.uk) (University of Edinburgh).....	152
62	<i>The Interplay of Locality and Surprisal</i> Umesh Patil (umesh.patil@gmail.com), Shravan Vasishth (University of Potsdam), Brian Bartek and Richard Lewis (University of Michigan).....	153
63	<i>Surprisal is Useful for Modeling Gaze Duration and Regression Probability</i> Shravan Vasishth (University of Potsdam), Marisa Boston (Michigan State University), Umesh Patil, Reinhold Kliegl (University of Potsdam) and John Hale (jthale@msu.edu) (Michigan State University)	154

**Poster Session III
Saturday Afternoon**

- 1 *Processing of Binomials in Sentence Contexts by Monolinguals and Proficient Bilinguals: Evidence from Response Times and Eyetracking*
 Anna Siyanova and Kathy Conklin (University of Nottingham)
 (aexas7@nottingham.ac.uk) 155

- 2 *Grammatical Processing in L2 Acquisition: How Beginning Learners Process What They Do Not Yet Produce*
 Josje Verhagen (josje.verhagen@mpi.nl) (Max Planck Institute for Psycholinguistics) 156

- 3 *Grammatical Gender in Processing Spanish-English Code-switches: A Visual World Study*
 Jorge Valdés-Kroff, Rosa E. Guzzardo, Paola E. Dussias (pdussias@psu.edu) and Chip Gerfen (Penn State University) 157

- 4 *Use of Emphatic Intonation for Contrast Resolution in Japanese: Adults Vs. 6yr-Olds*
 Kiwako Ito (ito@ling.ohio-state.edu) (Ohio State University, Riken BSI), Nobuyuki Jincho, Utako Minai, Naoto Yamane (Riken BSI) and Reiko Mazuka (Riken BSI, Duke University) 158

- 5 *Big Coins Versus Big Plates: The Use of Referential Contrast in Children's Real-time Comprehension*
 Yi Ting Huang (huang@wjh.harvard.edu) and Jesse Snedeker (Harvard University) 159

- 6 *Effects of Visual Contrast in Pre-nominal Modifier Phrase Comprehension in Japanese: an Eye Tracking Experiment with Children and Adults*
 Nobuyuki Jincho (njincho@brain.riken.jp) (Brain Science Institute, RIKEN), Kiwako Ito (Ohio State University), Naoto Yamane (Tokyo Gakugei University), Utako Minai (Brain Science Institute, RIKEN) and Reiko Mazuka (Duke University; Brain Science Institute, RIKEN) 160

- 7 *Similar Parents with Different Children: The Difference in the Parsing Pattern between Korean and Japanese Children*
 Youngon Choi (ychoi@skidmore.edu) (Skidmore College), Nobuyuki Jincho (RIKEN) and Reiko Mazuka (Duke University) 161

- 8 *The Role of Plausibility in Children's Online Language Processing*
 Jesse Snedeker (snedeker@wjh.harvard.edu) and Amanda Worek (Harvard) 162

- 9 *The Influence of Distributivity on Sentence Comprehension: an ERP-Study*
 Els Severens (els.severens@ugent.be) and Robert, J Hartsuiker (Ghent University) 163

- 10 *Effects of Prior Syntactic Information on Thematic Role Processing: An Event-related Potentials Study in Spanish*
 Clare Stroud (cstroud@umd.edu) and Colin Phillips (University of Maryland) 164

- 11 *Sensitivity to Syntax in Visual Cortex: A Manipulation of Prediction Strength and Morphological Type*
 Hugh Rabagliati, Suzanne Dikker and Liina Pykkänen (liina.pykkanen@nyu.edu) (New York University) 165

**Poster Session III
Saturday Afternoon**

12	<i>Situation-specific Expectations for Verbal Arguments: Evidence from Self-paced Reading and ERPs</i> Klinton Bicknell (kbicknell@ucsd.edu), Jeffrey Elman (UCSD), Mary Hare (Bowling Green State University), Ken McRae (University of Western Ontario) and Marta Kutas (UCSD).....	166
13	<i>Filler Activity Before the Gap: Evidence from wh-Islands</i> Barbara Schulz (schulzb@gwm.sc.edu) (University of South Carolina)	167
14	<i>The Use of Subcategorization Frame during Second Language Filler-Gap Resolution</i> Andrea Dallas (acdallas@ufl.edu), H. Wind Cowles and Edith Kaan (University of Florida)	168
15	<i>Processing of Sentence Integration: Evidence from the Processing of Relative Clauses in Chinese</i> ChinLung Yang (University of Hong Kong) (yangcl@hkucc.hku.hk), Marcus Johnson and Peter Gordon (University of North Carolina at Chapel Hill)	169
16	<i>Cognitive Control in Ambiguity Resolution</i> David January (djanuary@sas.upenn.edu), John C. Trueswell and Sharon L. Thompson-Schill (University of Pennsylvania)	170
17	<i>Regional Brain Activation During Spatial Language Processing: an fMRI Study.</i> Julie Conder (conderja@gwm.sc.edu), Sara Peters, Amit Almor, Gordon Baylis and Julius Fridriksson (University of South Carolina)	171
18	<i>The Effects of Prosody on the Listener's Representation of the Speaker's Thoughts</i> Evelina Fedorenko (evelina9@mit.edu) (MIT), Lillia Cherkasskiy (Stanford University), Steven Piantadosi, Jonathan Scholz, and Rebecca Saxe (MIT).....	172
19	<i>Lexical or Syntactic Control of Sentence Formulation? Structural Generalizations from Idiom Production</i> Agnieszka Konopka (konopka@uiuc.edu) and Kathryn Bock (University of Illinois at Urbana-Champaign).....	173
20	<i>Prediction in Parsing: Either Syntactic or Semantic</i> Masaya Yoshida (University of Edinburgh) and Michael Walsh Dickey (mdickey@pitt.edu) (University of Pittsburgh)	174
21	<i>The Role of Complexity in Sentence Parsing</i> Simon Hopp (simon.hopp@uni-konstanz.de) and Markus Bader (University of Konstanz)	175
22	<i>Preference for Local Scrambling: An On-line Study of Dependency Formation in Turkish</i> Zeynep Ilkin (z.ilkin@sms.ed.ac.uk) and Patrick Sturt (University of Edinburgh)	176
23	<i>Inhibitory Mechanisms and Garden Path Sentence Resolution</i> Loan Vuong (lcu@rice.edu) and Randi Martin (Rice University)	177

**Poster Session III
Saturday Afternoon**

- 24 *Processing Scope Ambiguity Involving a Universal Quantifier and Negation*
Sunyoung Lee (sunyoung@hawaii.edu) and William O'Grady (University of Hawaii at Manoa) 178
- 25 *Word Order Ambiguities in German: Evidence for Interactive Prominence Hierarchies*
Franziska Kretzschmar (kretzsc3@staff.uni-marburg.de) (Philipps University Marburg), Ina Bornkessel-Schlesewsky (Max Planck Institute for Human Cognitive and Brain Sciences, Leipzig), Markus Philipp and Matthias Schlewsky (Philipps University Marburg)..... 179
- 26 *Either' Prediction 'or' Local Attachment: Competing Effects during On-line Comprehension*
Rachel Baker, Celina Troutman (c-troutman@northwestern.edu), Melissa Baese (Northwestern University), Masaya Yoshida (University of Edinburgh) and Michael Dickey (University of Pittsburgh) 180
- 27 *The Lexical Semantics of Hitting and Breaking*
Jessica Love (love.131@osu.edu) and Gail McKoon (The Ohio State University) 181
- 28 *Verification Procedures for Modified Numeral Quantifiers*
Jorie Koster-Moeller, Andrea Gottstein (Pomona College), Jason Varvoutis (MIT) and Martin Hackl (Martin.Hackl@pomona.edu) (Pomona College) 182
- 29 *VP-internal Composition of Events*
E. Matthew Husband (husbande@msu.edu) (Michigan State University), Linnaea Stockall (Concordia University) and Alan Beretta (Michigan State University) 183
- 30 *Antilocality in Ungrammaticality: Nonlocal Grammaticality Violations Are Easier to Process*
Laura Staum Casasanto (lstaum@stanford.edu) and Ivan A. Sag (Stanford University) ... 184
- 31 *Production-Perception Asymmetry in Wh-scope Marking*
Yuki Hirose (hirose@boz.c.u-tokyo.ac.jp) (University of Tokyo) and Yoshihisa Kitagawa (Indiana University) 185
- 32 *Grammatical Encoding in the Production of Passive Sentences: Evidence from Priming Effects in Japanese*
Ying Deng (deng-ying@hiroshima-u.ac.jp), Ono Hajime and Hiromu Sakai (Hiroshima University) 186
- 33 *Alice in Um-derland: Dimensions of Variation in Disfluency Production*
Scott Fraundorf (sfraund2@uiuc.edu) and Duane G. Watson (University of Illinois at Urbana-Champaign)..... 187
- 34 *Phrasal Complexity vs. Retrieval Fluency in Sentence Production: Further Evidence for a Phrasal Scope of Planning*
Jason E. Crowther and Randi C. Martin (rmartin@rice.edu) (Rice University) 188
- 35 *Can Accentual Phrase Boundaries Remove Lexical Ambiguity in French?*
Mariapaola D'Imperio (mariapaola.dimperio@univ-provence.fr), Amandine Michelas (Aix-Marseille I and Laboratoire Parole et Langage, CNRS, Aix-en-Provence, FRANCE) and Joël Pynte (Laboratoire de Psychologie Cognitive, CNRS, Paris, FRANCE) 189

Poster Session III Saturday Afternoon

- 36 *Effects of Focal Accents on Relative Clause Attachment: Accent Effects or Memory Effects?*
Eun-Kyung Lee (eklee1@uiuc.edu) and Duane G. Watson (University of Illinois at Urbana-Champaign)..... 190
- 37 *Mapping Prosody to Interpretation in Alternative Questions*
Kathryn Pruitt (kpruitt@linguist.umass.edu) (University of Massachusetts Amherst) 191
- 38 *Effects of Production Effort on Acoustic Prominence*
Alexandros Christodoulou (christod@email.unc.edu), Lorelle Babwah and Jennifer Arnold (UNC Chapel Hill) 192
- 39 *Conceptual and Structural Event-Based Expectancy Generation in Language Comprehension*
Kazunaga Matsuki, Ken McRae (kenm@uwo.ca) (U. of Western Ontario), Tracy Tabaczynski (Bowling Green State University), Jeffrey L. Elman (UC San Diego) and Hare Mary (Bowling Green State University) 193
- 40 *Accessing Intermediate Levels of Semantic Role Information during On-Line Comprehension*
Gail Mauner (mauner@buffalo.edu) and Jean-Pierre Koenig (University at Buffalo, The State University of New York) 194
- 41 *The Activation of Verbs in Sentences Involving Verb Phrase Anaphors*
Sarah Callahan (smcallahan@ucsd.edu) (University of California, San Diego), Lew Shapiro and Tracy Love (San Diego State University)..... 195
- 42 *Focus Effects in Healthy Aging: Ease of Reference and Shallow Processing*
Jessica M. Price (jessica@psy.gla.ac.uk) and Anthony J. Sanford (University of Glasgow) 196
- 43 *The Relative Influence of Verb Implicit Causality and Discourse Prominence on the Establishment of Coreference with Repeated Names and Pronouns: An ERP Study*
Kerry Ledoux (kledoux1@jhmi.edu), Barry Gordon (Johns Hopkins University), Mikael Roll (Lund University) and Tamara Swaab (University of California, Davis) 197
- 44 *Egocentric Attention Influences Pronoun Comprehension*
Jennifer E. Arnold (jarnold@email.unc.edu) and Shin-Yi C. Lao (UNC Chapel Hill)..... 198
- 45 *Information Structural Constraints on Verb Phrase Ellipsis*
Laura Kertz (kertz@ling.ucsd.edu) (UC San Diego) 199
- 46 *Whose Self Do You Mean? -- Processing Mandarin Chinese Reflexives*
Dora Hsin-yi Lu (hsinyilu@uiuc.edu) (University of Illinois at Urbana-Champaign) and Susan M. Garnsey (University of Illinois at Urbana-Champaign) 200
- 47 *Comprehending Different Combinations of Referents: A New Explanation for the Repeated Name Penalty*
Shelia Kennison (shelia.kennison@okstate.edu), J. Michael Bowers and Elaine Fernandez (Oklahoma State University) 201

Poster Session III

Saturday Afternoon

48	<i>Aspectual Information in Head-final Languages: A Case of Temporal Adverbs, Numeral Quantifiers, and Predicates in Japanese</i> Shengyan Long (longshengyan@hiroshima-u.ac.jp), Ono Hajime, Ying Deng, Wei Luo and Hiromu Sakai (Hiroshima University)	202
49	<i>Statistical Co-learning of Linguistic and Visual Regularities Improve Word-learning</i> Brian Riordan (briordan@indiana.edu) and Chen Yu (Indiana University)	203
50	<i>Priming Pronoun Interpretation</i> Elsi Kaiser (elsi.kaiser@usc.edu) (University of Southern California).....	204
51	<i>Affordances and the Choice of Referring Expressions</i> Kumiko Fukumura (k.fukumura@dundee.ac.uk) and Roger P.G. van Gompel (Univeristy of Dundee)	205
52	<i>Indefinite Expressions and Reference Resolution</i> Maria Luiza Cunha Lima (marialuiza.cunhalima@gmail.com) (Federal University of Minas Gerais - Brazil).....	206
53	<i>Resumptive Pronouns: (Non)rescuing Function?</i> Ming Xiang (mxiang@fas.harvard.edu), Dustin Heestand and Maria Polinsky (Harvard University)	207
54	<i>Rethinking Relative Clause Processing in Japanese: New Evidence with Causatives</i> Atsushi Sato (asato1983@hiroshima-u.ac.jp), Hajime Ono, Baris Kahraman and Hiromu Sakai (Hiroshima University)	208
55	<i>Processing Japanese Relative Clauses with Local Assignment of Clause Boundaries</i> Baris Kahraman, Hajime Ono and Hiromu Sakai (eiyuheiwa@yahoo.co.jp) (Hiroshima University)	209
56	<i>Implicit Causality Biases Influence Relative Clause Attachment</i> Hannah Rohde (hannah@ling.ucsd.edu), Roger Levy and Andrew Kehler (UC San Diego).....	210
57	<i>Evidence Against Underspecification in Relative Clause Attachment.</i> Matthew Traxler (mjtraxler@ucdavis.edu) (UC Davis).....	211
58	<i>Expectation and Memory in Processing of German Verb-final Clauses: Relativization Matters</i> Roger Levy (University of California, San Diego) and Frank Keller (keller@inf.ed.ac.uk) (University of Edinburgh).....	212
59	<i>A Trade-off between Sentence Processing and Digit Maintenance in a Strictly Timed Dual Task Paradigm.</i> Maaïke Loncke (Maaïke.Loncke@ugent.be), Timothy Desmet, André Vandierendonck and Rob Hartsuiker (Ghent University, Belgium)	213

Poster Session III
Saturday Afternoon

- 60 *Mechanisms Underlying Lexical and Syntactic Ambiguities*
 Louise Stanczak (louises@bu.edu) (Boston University), David Caplan (Massachusetts
 General Hospital), Neal J. Pearlmutter (Northeastern University) and Gloria Waters
 (Boston University).....214
- 61 *Independence of Sentence Processing and Reasoning*
 Yoonhyoung Lee and Peter C. Gordon (pcg@email.unc.edu) (University of North
 Carolina at Chapel Hill)215
